SEPTEMBER 2025

Lamium maculatum 'Pink Pewter'
Clive's Comments

September is here! For those of us in the southern states and cool temperate Queensland it means all the flowers are bursting out, deciduous plants are putting on their foliage and the world looks better. This year things seem a little later than normal but that could be my mind playing tricks. The lavender are definitely a bit behind but this is to be expected in Victoria as we had some nice sun in early August but overall July and August have been more overcast than average.

It also means that we are into footy finals season. For most that means the season is over and we can get back into the garden. Good for our industry and good for public health. For many folk it is their favourite time of the year. Footy finals and spring Racing Carnival do bring a sense of energy to the community. Lots of colour and excitement that generates money flow across so many sectors.

Sometimes life gets very frustrating when we look at the behaviour of the Victorian and Federal Governments. They are both far more interested in their social philosophies and keeping themselves in office. We all know that Victoria is broke and Federal government is going the same way. We have massive immigration that is higher than almost everyone wants. Resources are stretched and there doesn't seem to be any plan on how to manage the pressure on power, water and infrastructure. We have constant pressure on small business from all sides....

Clive's Comments continued...

....Mandatory work from home laws, equal work equal pay regardless of experience, removal of right to negotiate fully between employers and employees, continual increase in taxes and more and more red tape. None of these issues will really improve work life balance and will kill more small businesses. We have some of the highest business closure rates on record.

Now we have the AFL also pushing its feel good woke agenda. They will severely punish anyone whose says something they don't like and take action without any real sense of balance. When it suits them they turn a blind eye but when it crosses their sense of public good they come out swinging. It is time they go back to running the football industry and stop trying to change social attitudes. Personally I like good rap music but I find the lyrics of people like Snoop Dog offensive. Indeed I find them far more offensive than any of the sexist, racist or any other insult used on the football ground. Regardless what we think having him there is creating offense to many people. In the real world we don't have to do what everyone likes but we should at least do things the people either like or can put up with.

It seems that leadership at all levels has lost touch with the average person. There is an attitude that they can do what they want and the public can squeal and whinge but will be ignored. Look at what this crazy government is doing to the primary industry sector. They are cutting DPI staff who actually return benefits to agriculture whilst spending loads of money on consultants and public servants. They have wacked on ridiculous insurance costs, taken farmland to put in expensive power systems that consumed more energy than they will ever save. All in face of huge public outcry. If we keep doing this we will lose the key source of inexpensive, clean food that doesn't travel across the world.

I saw a suggested number plate sign last week: Victoria the laughing stock state.

It is hard to find anything positive out of the government and the fabric of our society is tearing apart. People are scared in their own homes. Retailers are losing thousands of dollars to blatant theft. There is no sign of it getting better as the relevant departments seem powerless to take any action. Victorias are saying they will return the ALP based on this silly work from home legislation. Then there are the thousands of union members working on 'Big Build' projects who receive crazy wages. People will vote for the short term gain. It is bad enough that we the taxpayer are paying these amounts but it filters through to all worksites. The percentage of people working in the private sector compared to the number working for the taxpayer or on benefits is getting dangerously low.

It is spring and our plants are all waking up and looking good. It looks like we are in for a warm spring and there is a lot of pent up demand in the gardening sector. After a slow autumn winter we really need a good spring. Time to shut our eyes to what is happening in society and focus on what we do that is good for the world.

Clive Larkman

Do you want or need to import live plants?

If so, you may need to use a Post Entry Quarantine facility (PEQ)

- We have a PEQ facility with ability to handle the majority of plants
- Deflask tissue culture in PEQ or in regular nursery conditions
- Advise on packing and handling to minimise risk to plant health
- Assist in obtaining import permits
- Organise fumigation and insecticidal dips
- Will collect from airport
- Ship Australia wide once cleared PEQ (WA restrictions for new varieties may apply.)
- Pot on into larger pots post PEQ
- Bulk up stock post PEQ
- 30 years experience in plant importation
- 35 years experience in plant growing
- Handle one plant to several thousand.
- Fully licensed with Biosecurity and Border Control
