Hydrangea macrophylla 'Tokyo Delight'

Clive's Comments

This time last year we were just starting down an unknown road. 'We are in unprecedented times' became a mantra. We were all feeling confident as the federal and state governments were working together and we were expecting a vaccine by year's end. Borders were still open and case numbers around Australia were low. Biggest worries were the various cruise boats, and their infection rates and lockdowns were a concept that was just entering the Australian lexicon. We had just held our Herb and Chilli Festival with 4000 attendees and no Covid transfers. We had to cancel our Autumn Plant Fair, NGIV had to cancel MIFGS and we lost the Grand Prix. This was the start of what was to be a long hard year. Seems like a bad dream now that progressed to a horrible nightmare.

A year on and there are three basic groups of people in the community. The first are those that did (and in many cases still are) it tough. They lost their jobs or businesses and struggled to survive financially and were locked in their house for months. Then there were those (like the nursery industry) that kept trading/working and life was good. Some had to make sacrifices, but many came through without a scar.

The final group are those that worked for the government (politicians), large corporations and the public service – in other words; US. They kept their jobs and received good pay rises and for many life has never been so good. The worst thing is they also learned that they really aren't answerable to anyone. They found that they can basically make determinations, install and implement rules and make judgements regardless of what the public feels/needs. When we complain they nod, say they will look at the issue then go back to work. They just don't care....

Clive's Comments continued...

...It seems that every time we turn around there is a government department that has its hands in our lives. They have mid level bureaucrats writing rules that seem good on paper but are impossible in real life. It might be Department of Agriculture and Water Resources (Federal), Department of Agriculture WA, Melbourne Water, National Australia Bank, Telstra and so on. They just keep setting in place rules and regulations that make life hard. A year or so ago there was a pretence that they actually cared about public opinion but now????

At the same time the PC lobby is getting stronger and it is so much harder to have a contrary opinion. If you argue with them you are sexist, racist, agist, misogynist, or some other form of ...ist. After 40 years of adult life I just cannot see where we can go. I do not know how the free thinkers in society are going to exist in the new world. I don't know how the innovators will fight there way through the bureaucratic sludge we have created. I just hope they find their way through it all.

It is April 2021 and all we can do is keep working with our plant range. We will keep looking for new, old, rare and innovative plants that will stimulate the plant lovers in society. We ask that all nursery folk do the same. Talk up the beauty and value of plants. Talk up how they are mini oxygen machines and how our lives are better with plants around us. Let the bureaucrats, politicians and other nay sayers fight their own battles whilst we grow more and more plants. We gained a mass of new gardeners in 2020, let's all work to keep them!

It is autumn and we should be putting plants on the ground for another busy winter and exciting spring. Let's hope for a better Covid winter than 2021 yet still keep nurseries as busy as 2020.

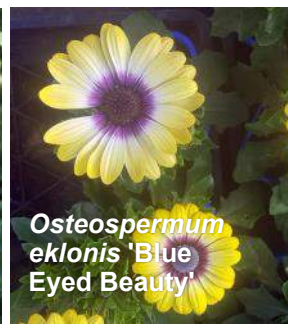

Clive Larkman
